ANTARCTIC EXPLORER: IN PARTNERSHIP WITH NEW SCIENTIST DISCOVERY TOURS

Welcome to Aurora Expeditions' Antarctic Explorer Sail/Fly expedition, in partnership with New Scientist Discovery Tours.

Antarctica stands as one of the last true frontiers of scientific exploration. Harsh, remote, and largely untouched by human development, it offers a unique natural laboratory for understanding Earth's past, present, and future. This expedition to Antarctica is not merely a journey to the southernmost point on the planet—it is a mission driven by science, discovery, and the urgent need to understand the systems that govern our changing world. With our own expert expedition team and New Scientist Discovery Tours team on board, travel with a deeper understanding of Antarctica, and the world.

This unique cruise will be hosted aboard a new, state-of-the-art polar expedition vessel, the Douglas Mawson (built 2025). The newest of Aurora Expeditions' small ship fleet, the Douglas Mawson is one of a handful of passenger ships to feature the revolutionary Ulstein X-BOW, reducing fuel consumption and allowing a sleeker cruising experience. With no more than 130 guests, an amazing viewing space and a ship-build designed to minimise negative environmental impacts, the Douglas Mawson guarantees a far more enjoyable guest experience than the other older and larger expedition ships.

Travel with like-minded people who love to connect with the natural world and the wonder of science. An ideal environment for curious-minded couples, friends and solo travellers to relax. Your expedition is a carefully curated mix of daytime activity

offboard, designed to immerse you in your polar surroundings, and talks while on board. During the day, the itinerary remains flexible as the captain and expedition leader will look at prevailing conditions and sightings to give you the best opportunity for wildlife encounters.

encounters.

Day 1 Ushuaia

Arrive in Ushuaia, where you will be met by a representative of Aurora Expeditions and transferred with your fellow expeditioners to your assigned pre-voyage hotel. If you are already in Ushuaia, we ask you to make your way to your hotel. Check-in is from 3.00 pm. This afternoon, visit the Aurora Expeditions hospitality desk in the hotel lobby, between 3.00 pm and 7.00 pm, to collect your luggage tags, and confirm if you wish to join our Lake Escondido pre-embarkation tour tomorrow. Our team will confirm details regarding your embarkation day, answer any questions and provide you with information on where to dine or purchase last minute items.

Expeditioners arriving after 7.00 pm will find a welcome pack waiting for them at check-in. We ask you to visit our hospitality desk tomorrow between 8.00 am - 8.45 am.

The remainder of your time is at leisure. All meals today are at your own expense.

Assigned accommodation: to be advised

Day 2 Embarkation

This morning, enjoy breakfast and check-out. Please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. Take your cabin luggage to hotel reception, prior to, or at check-out. Your luggage will be stored and transferred directly to the port for clearance, to be placed in your cabin ahead of your arrival on board. Please keep any valuables or personal items with you throughout the day.

Those wishing to join our Lake Escondido tour today, please meet in the hotel lobby at 8.45 am. This tour offers us an unforgettable panoramic drive through big valleys of glacial origin, evergreen and deciduous forests, waterfalls and rivers, in the vastness of the Andes Mountain Range. We will leave Ushuaia city to the northeast of Tierra del Fuego, driving through peat bog valleys to reach Garibaldi Pass, only accessible by a winding road that will take us to a panoramic point. From here we will have amazing panoramic views of Lake Escondido and, if weather conditions allow, of Fagnano Lake. We will start our descent towards the northeast to reach Fagnano Lake's shore where we will visit a local ranch. After appreciating the landscape, you will have the chance to enjoy the typical Fuegian Lamb barbecue. Enjoy some free time there before returning to Ushuaia for ship embarkation.

Alternatively, enjoy your day at leisure and meet at your hotel lobby or from the meeting point at the parking lot near the pier (details will be given by our ground staff at the hotel), to be transferred to the pier for embarkation.

Once onboard, you'll have time to settle into your cabin before our important mandatory briefings. As the ship pulls away from port, we'll gather on the deck to commence our adventure with spectacular views over Ushuaia and Tierra del Fuego.

This evening get to know your fellow expeditioners and friendly expedition team and crew at a welcome dinner to celebrate the start of a thrilling adventure to Antarctica.

Day 3-4 Drake Passage crossing

As we commence the Drake Passage crossing, we make the most of our time getting comfortable with the motions of the sea. Our expedition team prepare you for our first landing with important wildlife guidelines and biosecurity procedures and start our lecture program to help you learn more about Antarctica's history, wildlife and environment.

Our wildlife experiences begin as we enjoy watching and photographing the many seabirds, including majestic albatrosses and giant petrels following our vessel. On sea days, you may can enjoy the facilities on board the vessel including the gym, wellness centre or the relaxing in one of the observation lounges.

Nearing the South Shetland Islands and the tip of the Antarctic Peninsula on the afternoon of day four, the excitement is palpable with everyone converging on one of the observation decks watching for our first iceberg. The ocean takes on a whole new perspective once we are below the Antarctic Convergence and are surrounded by the surreal presence of floating ice sculptures. The memory of your first big iceberg sighting is likely to remain with you for a lifetime.

Time and weather permitting, we may attempt our first landing in Antarctica by late afternoon.

Days 5-8 Antarctic Peninsula

It's almost impossible to describe the feeling of arriving in Antarctica. Spotting

your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever.

Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24 hours of daylight and the days can be as busy as you wish.

Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing weather, ice conditions and wildlife opportunities.

We generally make landings or Zodiac excursions twice a day. You will want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula.

While ashore we aim to stretch our legs, wandering along pebbly beaches or perhaps up snow-covered ridgelines to vantage points with mountains towering overhead and ice-speckled oceans below. If you have chosen an optional activity, you will have the option to do that whenever conditions allow, and of course keen polar plungers will have the chance to fully immerse themselves in polar waters - conditions permitting!

In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding.

This is a great time to enjoy the observation lounge or make your way to the bridge for uninterrupted views of Antarctica in all its splendour. Keep an ear out for the creak and deep rumble of glaciers as they carve their way from summit to sea. Take a quiet moment to experience the wonder of this incredible white continent.

Join the team in the lecture theatre for presentations covering a broad range of topics to suit every interest. These lectures will cover polar science, wildlife, marine biology, glaciology, paleontology, exploration, history, photography and research including specialist New Scientist talks. Regardless of the topic, they all have one thing in common: they all aim to engage, educate, entertain and turn you into an ambassador for the planet. Plus, both on board and in the Zodiacs, the expedition crew will give you introductions to and commentary on many of the Antarctic phenomena you are experiencing.

You will have the opportunity to participate in the unique citizen science program offered throughout the voyage. It is designed to be a hands-on, immersive and transformative experience that helps you protect the beauty of our planet. Various sampling and data collection projects will be conducted on your voyage and a citizen science coordinator will be on hand to introduce and assist you. This expedition provides a unique platform to help collect high-quality data. With extended access to these remote regions and our expedition teams equipped with scientific backgrounds, we have the potential to participate and engage our passengers in citizen science projects to provide valuable data to the global scientific community. For a greater understanding, visit our world-class Citizen Science Centre. You will be rewarded for your thirst for knowledge with one of the best views on the ship.

Day 9 Fly King George Island to Punta Arenas

As we approach Frei Base on King George Island, it is time to farewell Antarctica and our amazing adventure before boarding our flight (approximately one hour and forty-five minutes) to Punta Arenas, Chile. There is time for reflection and discussion about what we have seen and experienced. We hope you become ambassadors for Antarctica telling your family, friends and colleagues about your journey to this magical place, advocating for its conservation and preservation so that they might one day visit the region to experience what you have been lucky to see and do here.

From Punta Arenas airport, you will be transferred to our group hotel for an overnight stay.

Note: King George Island is located at the northern tip of the Antarctic Peninsula in the South Shetland Islands and is one of the most remote places on Earth. A clear sky with perfect visibility is required for safe take-off and landing. We apologise in advance for any possible delays.

Accommodation: Hotel Cabo de Hornos

Day 10 Depart Punta Arenas

After breakfast, bid a fond farewell to your fellow travellers as we continue our onward journeys, hopefully with a newfound sense of the immense power of nature (breakfast included). A transfer to the airport is included in the voyage fare.

YOUR SHIP: DOUGLAS MAWSON

YOUR SHIP:	Douglas Mawson
VESSEL TYPE:	Small Ship Expedition
LENGTH:	
PASSENGER CAPACITY:	154
BUILT/REFURBISHED:	2025

Length: 104.4 m

Setting sail in 2025, the Douglas Mawson is the latest addition to Aurora Expeditions' fleet of purpose-built small ships, designed for global discovery and adventure in comfort. Named after the pioneering Australian geologist and explorer, this state-of-the-art vessel combines cutting-edge technology with elegant design, featuring the revolutionary Ulstein X-BOW® for smoother sailing and enhanced sustainability. With space for up to 154 guests (130 on expedition voyages), it offers an intimate and environmentally conscious cruising experience. Multiple observation areas, a heated pool, Jacuzzis, and a sauna ensure guests enjoy both exploration and relaxation in equal measure. On board, passengers can delve deeper into their destinations through engaging lectures in the theatre, hands-on learning in the Citizen Science Centre, and peaceful moments in the library or observation lounge. Dining is relaxed and sociable, with open seating, hearty cuisine, and complimentary beverages with dinner. Accommodation options range from luxurious suites with private balconies to well-appointed solo staterooms, catering to every traveller's style and comfort. Whether navigating the polar regions or exploring the British Isles and Mediterranean, the

Douglas Mawson delivers the perfect balance of adventure, discovery, and refined small-ship luxury.

hip luxury.
