ANTARCTICA, SOUTH GEORGIA, AND THE FALKLANDS EXPEDITION CRUISE

This voyage has it all: the impossible beauty of the Antarctic ice, the vast king penguin colonies of South Georgia, and the Falklands' amazing albatross colonies. Not even the mass migrations of Africa can rival the awesomeness of seeing a king penguin colony of tens of thousands individuals stretching as far as the eye can see. You'll have other rare sightings here too: massive, in both senses of the word, herds of elephant seals; and a wandering albatross stretching its 11-foot wings. It's the impossible beauty of an Antarctica trip exponentially increased by unimaginable numbers of animals. For most travelers, visiting Antarctica is a once-in-a-lifetime experience. So for those with the luxury of time, including the Falklands and South Georgia just makes sense. And it makes for a genuine experience of a lifetime.

ITINERARY

DAY 1 Buenos Aires, Argentina, or Santiago, Chile

Arrive in Buenos Aires (National Geographic Explorer & National Geographic

Endurance) or

Santiago (National Geographic Resolution).

Transfer from the airport to the Alvear Art Hotel or similar (National Geographic Explorer), or Alvear Icon or similar (National Geographic Endurance) before setting out on a guided tour of the city's Beaux-Arts palaces and parks. Visit Recoleta--the final resting place of Argentina's iconic first lady, Eva Peron--and enjoy a private visit to El Zanjón de Granados, one of the city's premier museums.

Or, transfer to the Ritz-Carlton, Santiago, or similar (National Geographic Resolution) before our guided overview of this vibrant city backed by the inspiring Andes. Discover sites like the Plaza de Armas and get a feel for the mix of old and new that makes this city so great.

In the early evening, gather for an informal reception and drink at the hotel.

Arrival Time: Arrive before 11:30 a.m. local time.

Arrival City: Buenos Aires, Argentina or Santiago, Chile

DAY 2 Ushuaia, Argentina / Embark Ship

Today we fly south to Ushuaia, the southernmost city in the world, where we meet our ship. Ushuaia's spectacular setting, between the jagged peaks of the Darwin Range and the protected waters of the Beagle Channel, makes it an appropriately wild place to begin our journey to the White Continent and a great destination in its own right. Lunch will be served onboard a private catamaran while cruising the Beagle Channel, where we'll be on the lookout for huge South American sea lions and birds like imperial cormorants. Residents of Ushuaia often call their small city 'El Fin Del Mundo', The End of the World, but for us, it's just the beginning.

Meals Included: Breakfast, Lunch, Dinner

DAYS 3-4 At Sea

This 500-mile-wide strait between South America and the Antarctic Peninsula is one of the most famous bodies of water in the world. Sometimes ferocious, sometimes flat calm, the Drake is always a fascinating place in its own right. This part of the journey is our best opportunity to see gorgeous seabirds like the wandering albatross, and we might be lucky enough to encounter killer whales or rare species of dolphins. This is also a day to get to know our ship and prepare for the adventures ahead. Visit the Bridge (a great place to spot wildlife), have a relaxing massage; attend a talk about the biology of the penguins you'll soon be seeing; or settle into a comfy chair in the observation lounge, look out over the waves, and reflect on the incredible history of this fabled passage. If it does get a little rough, just take a couple of nice naps; we'll be in Antarctica before you know it.

Meals Included: Breakfast, Lunch, Dinner

DAYS 5-9 Antarctica

With long hours of daylight at this time of year, we have ample opportunities to explore. Our schedule is flexible, allowing us to take advantage of the unexpected. We might set out by kayak to encounter towering icebergs at water level; embark on a Zodiac excursion in search of seals and blue-eyed shags; walk amid thousands of Adelie and gentoo penguins; or experience the thrill of the ship crunching through pack ice. Everywhere we go in Antarctica we're surrounded by opportunities to capture uniquely beautiful images. Along the way our expert expedition team will enrich our experiences.

Meals Included: Breakfast, Lunch, Dinner

DAYS 10-11 At Sea

Setting out from the South Shetland Islands to South Georgia, we are following in the wake of Sir Ernest Shackleton's epic voyage in the James Caird across 800 miles of the wild and lonely Scotia Sea. But we won't be lonely at all--these waters are home to a large and growing population of whales, including fin whales, southern right whales and even blue whales--the largest animal on Earth. Albatross and petrels wing past the ship, providing us with another wonderful challenge for photography, while presentations from the

info@wildearth-travel.com

expedition team help to prepare us for the mind-bending wildlife spectacles of South Georgia.

Days at sea are not simply transits from one place to another; they are a very important part of this epic journey in their own right. The crossing from the Antarctic Peninsula to South Georgia gives us a chance to stop and breathe, to explore the amenities of the ship and to spend a little time contemplating all our new memories. Life-changing experiences tend to pile up on one another in the Antarctic, so slow down a bit and let it all settle in. This is a great time to catch up with your journal, enjoy a rejuvenating massage, or download and review all those hundreds (or thousands!) of photos. Get some rest, too--when we get to South Georgia, it's going to be go, go, go!

Meals Included: Breakfast, Lunch, Dinner

DAYS 12-15 South Georgia Island

Simply put, there is nowhere else in the world like South Georgia. King penguins, the second largest species in the world, are unquestionably the most iconic wildlife of South Georgia. Exact numbers are not known, but the largest single colony on the island may have as many as 500,000 of these amazing birds nesting together on a single two-mile-long beach.

Explore the spectacular coastline of South Georgia Island. In keeping with the nature of an expedition, our schedule is flexible with opportunities for walking, hiking, kayaking, and Zodiac excursions. Sailing along the coast, we plan to offer activities every day including visits to Grytviken--the final resting place of Shackleton--and Stromness Harbour, where Ernest Shackleton, Tom Crean, and Frank Worsley finally reached aid at a whaling station.

The island is also home to huge elephant seals and thousands of king penguins. South Georgia is sometimes called "the Serengeti of the Southern Ocean", but even that description seems inadequate; this lonely island is unique in the world, so rich and so beautiful that it defies any comparison.

Meals Included: Breakfast, Lunch, Dinner

DAYS 16-17 At Sea

Our first day at sea on the way to the Falkland Islands is another opportunity to

think back over the adventures of the past few days and make preparations for those soon to come. Spend some time chatting about your latest images with the National Geographic photography expert and learn to make them look their best in the digital darkroom. Put the finishing touches on your watercolor of that amazing iceberg or try to capture an albatross's flight in a poem. Everyone needs to exhale a bit after a visit to South Georgia, so take a little time to explore the details of your own memories and share them with your shipmates.

The Bridge is the nerve center of the ship, in more ways than one. There's always a congenial atmosphere there, whether you've come to ask one of the officers about navigation or just to sit and watch the world go by with binoculars in hand. The waters close to the Falkland Islands are rich with marine wildlife, so this is a great time to hang out with the naturalists and keep watch for rare dolphins or another beautiful species of albatross. All new sightings go up on the white board for the day's record!

Meals Included: Breakfast, Lunch, Dinner

DAYS 18-20 Falkland Islands

Everything we love about expedition travel seems to come together in the western Falkland Islands. Where else can you land on a beach tucked into a rocky cove, hike out across a rolling green pasture, and suddenly find yourself at the crest of a sea cliff looking out over the South Atlantic surf? Just a few steps further and you're standing at the edge of a breeding colony of black-browed albatross, so close that you can hear the wind on their wings as they swoop into land beside you. Check out the thousands of irresistible gentoo, rockhopper, and Magellanic penguins that congregate here, along with fur seals.

Stanley, the bright, pretty capital of the Falkland Islands, is a wonderfully unexpected place: a charming outpost of British culture tucked into a small bay on the shore of these windswept islands in the far South Atlantic. Many Falkland Islanders still live in very traditional ways, and we'll have a chance to visit a small farm to see some expert sheep shearing and learn about the best techniques for cutting blocks of peat for the fire. The rocky hills and white sand beaches outside town offer some excellent hikes, and afterward, a cup of tea or a pint at the local tavern goes down very nicely.

Meals Included: Breakfast, Lunch, Dinner

DAY 21 At Sea

The final day of our expedition takes us across the shallow waters of the Falklands Shelf, back to our starting point in Ushuaia. Attend presentations from the expedition staff on topics that help to sum up all the wonderful details of our experiences in the far south, and spend some time on deck enjoying the seabirds and dolphins that make these seas their home.

This is a day for contemplation as well. The Antarctic stays with you. Sometime soon, at a moment in the midst of a stressful day, you'll remember the feeling of the polar wind, the sight of waves crashing against the blue wall of an iceberg, and the sound of the penguins calling to their chicks. It's a little bit of peace that you'll carry with you always.

Meals Included: Breakfast, Lunch, Dinner

[DAY 22 Disembark Ship / Ushuaia / Buenos Aires \(National Geographic Explorer / National Geographic Endurance\) or Santiago \(National Geographic Resolution\)](#)

Disembark in Ushuaia. Fly by private charter to Buenos Aires or Santiago and transfer to the airport for your flight home.

Meals Included: Breakfast

Please Note:

Some departures may have a slightly modified itinerary. Please confirm departure and arrival cities with an Expedition Specialist before booking your flights.

YOUR SHIP: NATIONAL GEOGRAPHIC ENDURANCE

YOUR SHIP:	National Geographic Endurance
VESSEL TYPE:	Expedition Ship
LENGTH:	124 m
PASSENGER CAPACITY:	126
BUILT/REFURBISHED:	2020

A next-generation expedition ship, purpose-built for polar navigation.

National Geographic Endurance is a next-generation expedition ship, purpose-built for polar navigation. A fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessel, it is designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. Its patented X-BOW® is key to its design; its powerful wave-slicing action provides an extremely smooth ride in even adverse conditions, and even reduces spray on deck, for superior observation. She carries a full suite of expedition tools and offers a variety of experience-enhancing amenities.

The luxury of comfort on expedition

National Geographic Endurance comfortably accommodates 126 guests in 69 outside-facing cabins. Cabins are efficiently designed, with sizes range from the 140-square-foot solo cabin to the 430-square-foot category 7 suite. Fifty-three of the 69 cabins, including all 12 of the solo cabins, will feature small balconies with floor-to-ceiling sliding doors that bring in the spectacular views and ample natural light.

Comfort & convenience in every room

Every cabin has two portholes, a large window or balcony, and temperature controls. Bathrooms are modern and stocked with botanically inspired hair products, soap, and shower gel, plus a hairdryer. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

_Dining: _Food served aboard is fresh, local, and delicious, and sourced from suppliers who share our values of sustainable use whenever possible. Meals aboard are almost always served in the dining room, located aft of the lounge deck. When weather conditions allow, lighter fare may be served on the observation deck. There is no assigned seating and our dining room accommodates the entire expedition community in a single seating. During meals your expedition leader, naturalists, and any guest speakers aboard will join you.

Public Areas: Two restaurants, a Chef's Table for small group dining, Observation Lounge with bar, gym, Wellness area, infinity-style outdoor hot tubs, library, main lounge with full service bar, 24-hour beverage, state-of-the-art facilities for films, slideshows and presentations, and a photo workshop area; plus, an expedition base with lockers for expedition gear, and an "open bridge" for access to our captain, officers and the art of navigation.

Meals: Two restaurants, featuring local, sustainable choices and unassigned seating for flexible, inclusive dining; plus a Chef's table for intimate, small group dining. Main restaurant has 270° views, and the Observation deck restaurant features lighter, made-to-order fare.

wildearth-travel.com

info@wildearth-travel.com

_Cabins: All cabins face outside with large windows, private facilities and climate controls. 53 cabins have balconies. Cabins are equipped with expedition command centers with tablets and USB/mobile device docking, TVs, Wi-Fi connections, and hair dryers.

_Expedition Tools: Zodiac landing craft, kayaks, snowshoes, cross-country skis, undersea specialist operating a remotely Operated Vehicle (ROV) and underwater video camera for unique access to polar marine world, hydrophone, aerial remote-controlled camera and video microscope.

_Special Features: A full-time doctor, undersea specialist, National Geographic photographer, Lindblad-National Geographic certified photo instructor and video chronicler, an internet cafe and laundry.

_Wellness: The vessel is staffed by our wellness specialists and features a glass-enclosed yoga studio, gym, treatment rooms and spa relax area, and high- and low-heat saunas with ocean views.

_Expedition Landing Craft: Key to our operation is our fleet of expedition landing craft, which we use to land in places that would otherwise be inaccessible. With 8 of these boats and two loading stations used every time we disembark, we're able to transfer guests off the ship quickly, so you can be out on adventures, not idly waiting. The expedition landing craft we use are 19 feet long, powered by four-stroke outboard engines, and are capable of comfortably carrying 10-12 people. They are widely recognized as the safest and most versatile small boats afloat.

_Remotely Operated Vehicle: Capable of reaching 1,000 feet, far beyond the range of any Scuba diver, the ROV allows you to literally view parts of the undersea that are as unexplored as the

moon. Chances are you, like many of our guests, will be struck by how surprisingly colorful undersea life is in these unlikely places. And this glimpse may fundamentally change how you view the ocean.

_Kayaks: National Geographic Endurance will be equipped with a fleet of kayaks large enough to ensure everyone who wants to can paddle at every opportunity.

Consequently, prior kayaking experience isn't necessary--many of our guests have their first kayaking experience in extraordinary locations. Our custom-designed floating platform lets us deploy kayaks from the ship, or any location we want--including far from shore. Kayakers are usually free to explore where they want within boundaries set by the undersea specialist and officer of the watch.

_Underwater camera: Our undersea specialist will dive often during your expedition, even in Alaska, with cold-water gear, to shoot high-definition, Cousteau-like footage of the deep. Colorful nudibranchs, swimming, plant-like crinoids, and mysterious fish with antifreeze blood that thrive in the frigid sea will give you an entirely new appreciation of the marine environment.

_Video microscope: Naturalists will use the video microscope to help explain all elements of the environment, including tiny organisms that are the building block of the marine ecosystem. Spellbinding live views of krill at 80x magnification fills the high-definition screens in the lounge with vivid detail, and fills every onlooker with a sense of wonder at the importance of otherwise unobservable creatures.

_Hydrophone: This underwater microphone is deployed to listen to the vocalizations of marine mammals. Real time transmissions of their eerie, haunting sounds can be broadcast through the ship or recorded for later playback. Few experiences

in nature are as captivating as watching humpback whales feed close to the ship as their vocalizations play through the ship's PA system.

Electronic charts: An electronic chart showing the ship's location, course, and speed is almost always on display in the lounge.

Open bridge: You'll find our captains are engaged, knowledgeable members of your expedition who are eager to share their passion with you. Venture's open bridge features comfortable spaces to sit, enjoy the view, drink your morning coffee, or simply chat with the officers.

Snorkeling gear & wetsuits: On warm weather itineraries where there will be snorkeling, you'll select a mask, snorkel, fins, and wetsuit that remain yours for the duration of the expedition. There's no need to pack and tote your own gear, although guests who prefer to are welcome to bring their own.

their own.
