ANTARCTICA - WHALE WATCHING CRUISE - IN SEARCH FOR THE GIANTS OF THE SEAS

This Antarctic Peninsula cruise delivers you into a landscape of rugged rock, pure white snow, and a fantastic variety of wildlife. Come say hello to whales, seals, and penguins.

ITINERARY

Day 1: End of the world, start of a journey

Your voyage begins where the world drops off. Ushuaia, Argentina, reputed to be the southernmost city on the planet, is located on the far southern tip of South America. Starting in the afternoon, you embark from this small resort town on Tierra del Fuego, nicknamed "The End of the World," and sail the mountain-fringed Beagle Channel for the remainder of the evening.

Day 2 – 3: Path of the polar explorers

Over the next two days on the Drake Passage, you enjoy some of the same experiences encountered by the great polar explorers who first charted these regions: cool salt breezes, rolling seas, maybe even a fin whale spouting up sea spray. After passing the Antarctic Convergence - Antarctica's natural boundary, formed when north-flowing cold waters collide with warmer sub-Antarctic seas - you are in the circum-Antarctic upwelling zone. Not only does the marine life change, the avian life changes too. Wandering albatrosses, grey-headed albatrosses, black-browed albatrosses, light-mantled sooty albatrosses, cape pigeons, southern fulmars, Wilson's storm petrels,

info@wildearth-travel.com

blue petrels, and Antarctic petrels are a few of the birds you might see.

Day 4 – 7: Entering Antarctica

Gray stone peaks sketched with snow, towers of broken blue-white ice, and dramatically different wildlife below and above. You first pass the snow-capped Melchior Islands and Schollaert Channel, sailing between Brabant and Anvers Islands.

Sites you may visit include:

Danco Island - Activities here may focus on the gentoo penguins nesting on the island, in addition to the Weddell and crabeater seals that can be found nearby.

Neko Harbour - An epic landscape of mammoth glaciers and endless wind-carved snow, Neko Harbour offers opportunities for a Zodiac cruise and landing that afford the closest views of the surrounding alpine peaks.

Paradise Bay - You may be able to take a Zodiac cruise in these sprawling, ice-flecked waters, where there's a good chance you'll encounter humpback and minke whales.

Pleneau & Petermann Islands - If the ice allows it, you could sail through the Lemaire Channel in search of Adelie penguins and blue-eyed shags. There is also a possibility you'll encounter humpback and minke whales here, as well as leopard seals.

Port Lockroy - After sailing through the Neumayer Channel, you may get a chance to visit the former British research station - now a museum and post office - of Port Lockroy on Goudier Island. You may also be able to partake in activities around Jougla Point, meeting gentoo penguins and blue-eyed shags.

At the nearby sites, such as Damoy Point there may be the opportunity for snowshoeing to the old ski-way, this is also one of our favourite camping sites.

Wilhelmina Bay & Guvernøren - This is a great place to spot humpback whales. You also may embark on a Zodiac cruise ending at the ghostly wreck of the Guvernøren, a whaling vessel that caught fire here in 1915. Around the Melchior Islands, amid a frozen landscape peopled with icebergs, you may encounter even more whales, leopard seals, and crabeater seals.

Conditions on the Drake Passage determine the exact time of departure.

Day 8 - 9: Familiar seas, familiar friends

Your return voyage is far from lonely. While crossing the Drake, you're again greeted by the vast array of seabirds remembered from the passage south. But they seem a little more familiar to you now, and you to them.

Day 10: There and back again

Every adventure, no matter how grand, must eventually come to an end. It's now time to disembark in Ushuaia, but with memories that will accompany you wherever your next adventure lies.

Please note:

YOUR SHIP: PLANCIUS

YOUR SHIP:	Plancius
VESSEL TYPE:	Expedition
LENGTH:	89 metres
PASSENGER CAPACITY:	108 - 116
BUILT/REFURBISHED:	1976 / 2009

M/v "Plancius" was built in 1976 as an oceanographic research vessel for the Royal Dutch Navy and was named "Hr. Ms. Tydeman". The ship sailed for the Dutch Navy until June 2004 and was eventually purchased by Oceanwide Expeditions. The vessel was completely rebuilt as a passenger vessel in 2009 and complies with the latest SOLAS-regulations (Safety Of Life At Sea). M/v "Plancius" is classed by Lloyd's Register and flies the Dutch flag.

Perfect for any expedition

M/v "Plancius" accommodates 108 passengers with private toilet and shower in 4 quadruple porthole cabins, 9 twin porthole cabins, 25 twin cabins with window and 2 twin deluxe cabins, all (ca. 12,5 square meters) and 10 twin superior cabins (ca. 21 square meters). All cabins offer lower berths (one queen-size bed in the superior cabins and two single beds in the twin cabins), except for the 4 quadruple cabins (for 4 persons in 2x upper and lower beds).

Plancius: a vessel with comfort and character

Please be aware that a small number of cabins may have a partially obstructed view due to the design requirements of the ship. The best view is always on the outer deck or the bridge. The

vessel offers a restaurant/lecture room on deck 3 and a spacious observation lounge (with bar) on deck 5 with large windows, offering full panorama view. M/v "Plancius" has large open deck spaces (with full walk-around possibilities on deck 4), giving excellent opportunities to enjoy the scenery and wildlife. She is furthermore equipped with 10 Mark V zodiacs, including 40 HP 4-stroke outboard engines and 2 gangways on the starboard side, guaranteeing a swift zodiac operation. M/v "Plancius" is comfortable and nicely decorated, but is not a luxury vessel. Our voyages in the Arctic and Antarctic regions are primarily defined by an exploratory educational travel programme, spending as much time ashore as possible. Plancius fully meets our demands to achieve this. The vessel is equipped with a diesel-electric propulsion system which reduces the noise and vibration of the vessel considerably. The 3 diesel engines generate 1.230 horse-power each, giving the vessel a speed of 10 - 12 knots. The vessel is ice-strengthened and was specially built for oceanographic voyages. M/v "Plancius" is manned by an international crew of 40 (20 nautical crew and 20 hotel crew), 8 expedition staff (1 expedition leader, 1 assistant expedition leader and 6 guides/lecturers), and 1 doctor.

Age and Nationality

Passengers on a typical voyage range from their 30s to their 80s - with a majority usually from 45 - 65. Our expeditions attract independent-minded travellers from around the world. They are characterised by a strong interest in exploring remote regions. The camaraderie and spirit that develops aboard is an important part of the expedition experience. Many departures have several

Wild Earth Travel

Small Ships, Big Adventures

wildearth-travel.com

info@wildearth-travel.com

nationalities on board.

Dress code

In keeping with our expeditions atmosphere, dress on board is informal. Bring casual and comfortable clothing for all activities. Keep in mind that much of the spectacular scenery can be appreciated from deck, which can be slippery. Bring sturdy shoes with no-slip soles and make sure the parka is never far away in case of the call "Whales!" comes over the loudspeaker and you have to dash outside. Wear layers since it is comfortably warm aboard the ship - and often cold on deck.

Currency & payment

Refreshments from the bar and souvenirs will be charged to your cabin. The day before departure you can settle your bill with the Hotel Manager and pay by credit card (Visa or MasterCard) or cash (Euro or Dollar). We do not accept cheques of any kind. The prices and standard currency on board our vessels is the Euro. Other currencies may be accepted at the discretion of the hotel manager at prevailing rates.

Electric current

The electrical supply aboard the ship is 220v, 60Hz. Electrical outlets are standard European with two thick round pins. You may need a 220v/110v converter.

Gratuities

The customary gratuity to the ship's service personnel is made as a blanket contribution at the end of the voyage which is divided among the crew. Tipping is a very personal matter and the amount you wish to give is at your discretion. As a generally accepted guideline, we suggest US\$8 to US\$10 per person per day. It is better for the crew, if you can give them cash US Dollar.

Non-smoking policy

On board our vessels we have a non-smoking policy. It is

prohibited to smoke inside the ship. You can smoke in the designated smoking areas. Please respect the wishes of non-smokers.

Your physical condition

You must be in good general health and you should be able to walk several hours per day. The expedition is ship-based and physically not very demanding. Although we spend as much time as possible ashore, you are welcome to remain aboard the ship if you like. To join most excursions, you must be able to get up and down the steep gangway from the ship to the water level to board the Zodiacs. Staff will assist you in and out of the boats. This will become progressively easier with practice. Ashore it can be slippery and rocky. You are travelling in remote areas without access to sophisticated medical facilities, so you must not join this expedition if you have a life-threatening condition, or need daily medical treatment.

treatment.
