EPIC ANTARCTICA: CROSSING THE CIRCLE VIA FALKLANDS & SOUTH GEORGIA ABOARD NEW POLAR VESSEL

Our 23-day Epic Antarctica: The Falklands, South Georgia & Crossing the Circle delivers every major Antarctic highlight in one unforgettable voyage. Begin in the Falkland Islands (Islas Malvinas), home to albatross, dolphins, five species of penguins, and surprisingly white-sand beaches. Continue to South Georgia, populated by 450,000 breeding pairs of king penguins, 50 million seabirds, and 5 million seals. Then explore the magnificent Antarctic Peninsula before crossing the Antarctic Circle--the ultimate milestone for world travelers. Bonus: every guest enjoys an included flightseeing experience, adding yet another extraordinary perspective to this epic adventure.

ITINERARY

Day 1 Arrive in Buenos Aires, Argentina

Upon arriving in this splendid city, known for its architecture and rich European heritage, you will independently transfer to your group hotel (pre-expedition hotel night included in mandatory transfer package).

Day 2 Fly to Ushuaia and Embark

After an early breakfast at the hotel, the group will transfer to the airport and board our private charter flight to Ushuaia, Argentina. Upon arrival, you will be transferred from the airport to a central downtown location to have some time on your own to explore this quaint port town before making your way to the pier. After a late afternoon embarkation, you will sail along the historic Beagle Channel, which transects the Tierra del Fuego archipelago in the extreme south of South America. Expect an air of anticipation as you depart--the next time you see land, you'll be in a wildlife wonderland!

Day 3 At Sea

Your days at sea are filled with presentations led by your Expedition Team photography, wildlife, glaciology, and history. In between presentations, spend time on deck looking for wildlife or chatting with your shipmates over a drink at the bar.

Days 4 and 5 Falkland Islands (Islas Malvinas)

Upon your arrival in the Falklands (Malvinas), your camera will get its first real workout capturing the abundant wildlife and rugged feel of this sub-Antarctic region. The archipelago contains two main islands, East Falkland and West Falkland, which you will explore during daily Zodiac excursions and landings. Stanley, also known as Port Stanley, is often a favored landing site, as the town offers a unique British outpost feel, complete with eclectic charm. You'll be free to explore, grab a pint at the local pub or visit numerous churches and museums. The Archipelago is rich in wildlife, especially birds, and home to Magellanic, gentoo and southern rockhopper penguins. If you're lucky, you may even spot king penguins here as well! You can expect to see black-browed albatross, plus two endemic bird species--the flightless Falkland steamer duck and possibly the elusive Cobb's wren. Your team of lecturers and specialists will be sure to educate you on the local flora and fauna, making the most out of your time in the Falklands.

Days 6 and 7 At Sea

Sailing southeast to South Georgia, you'll officially enter Antarctic waters once you cross the Antarctic Convergence, an invisible biological boundary encircling the continent. This meeting of oceans, where the cold Antarctic waters mix and mingle with the warmer waters of the Indian, Pacific and

Atlantic Oceans, helps create the abundance of krill that attracts whales and seals to this part of the world. Your Expedition Team will notify you when you cross this invisible yet important line, and also look out for the seabirds and marine life that frequent the area.

Days 8 to 11 South Georgia

This remote, mountainous island was a popular stop for many historic Antarctic expeditions and was once a haven for hunting whales and seals. Today, island wildlife populations are rebounding, but you'll still see remnants of old whaling stations and other abandoned outposts. One significant and historic site is the grave of the great explorer Sir Ernest Shackleton. You can visit his grave at the settlement of Grytviken, which is also home to an old whaling station, plus a museum, gift shop, church and small research station. Although South Georgia's history is an important attraction to the island, it is the tremendous abundance of wildlife that you and your shipmates will surely find most captivating. Each landing you make on South Georgia, often referred to as the Galapagos of the Poles, will open your eyes to the wondrous lives of new, enthralling creatures. One day you may see rookeries with hundreds of thousands of pairs of king penguins waddling on a beach, and the next, you may visit another beach blanketed with thousands of fur or elephant seals. The grasses, mountains and beaches of South Georgia all play an important role in the breeding and survival of different species on the island. This fragile and interwoven relationship is something your Expedition Team will explain to you during your time here.

Days 12 and 13 At Sea

Say goodbye to the king penguins, as your next destination is Antarctica! Your days at sea are filled with presentations, lectures and workshops led by your Expedition Team, who will prepare you for the wildlife that will greet you upon your arrival.

Days 14 to 16 South Shetland Islands and Antarctic Peninsula

The experience is hard to put into words, but the most common reaction upon reaching the White Continent is a sense of reverence and awe. You will discover that Antarctica is a land of extremes: at one moment you'll be overcome with a feeling of complete silence and solitude; the next, you'll be laughing at the comical antics of a curious penguin. Zodiac cruising, visits to

historical sites and, of course, communing with seals and penguins are sure to keep you smiling every day. Perhaps you'll catch sight of the fearless penguin eater, the leopard seal, or maybe you'll come eye to eye with an Antarctic minke whale while you are cruising in a Zodiac. Each day and each excursion will present a new collection of creatures to delight you and keep your camera busy. If you find yourself wanting more, treat yourself to an optional kayaking adventure (reserve in advance when booking your trip) or a plunge into Antarctic waters!

Days 17 and 18 Antarctic Circle

Crossing the Antarctic Circle is an impressive achievement, as few expeditions reach so far south. If conditions allow us to cross this famed line at 66°33' S, we'll toast the first explorers who ventured here, and you can raise a glass and take pride in knowing you've made it to a part of the world visited by very few people. This is raw Antarctica, home of the midnight sun and fantastic iceberg sightings.

Days 19 and 20 Northbound Along the Peninsula

If you haven't had your fill of Antarctic wildlife and icebergs by now, you'll surely be satisfied by the time you return to the Drake Passage. You will continue to make excursions by Zodiac as you travel north along the western Antarctic Peninsula. Your Expedition Team will always be on the lookout for species of seabirds, seals and whales that may have eluded you on your journey south.

Days 21 and 22 Crossing the Drake Passage

After more than three weeks of unique wildlife encounters and remarkable landscapes, your journey home begins. Crossing the Drake is your unofficial rite of passage, putting a final stamp of approval on your Antarctic adventure.

Day 23 Disembarkation in Ushuaia

After breakfast aboard the ship, it is time to part ways and say goodbye to your Expedition Team. Airport transfers will be provided for those departing on the first homeward flights. Other guests will be transferred to town.

Please Note:

Embracing the unexpected is part of the legacy - and excitement - of expedition travel. There are no guarantees that we can achieve everything we set out to accomplish. A measure of flexibility is something all of us must bring to a voyage. There are nearly 200 recognized sites in the Antarctic Peninsula and South Shetlands and the places mentioned above may be changed to others equally as interesting.

YOUR SHIP: ULTRAMARINE

YOUR SHIP:	Ultramarine
VESSEL TYPE:	Expedition Ship
LENGTH:	128 metres
PASSENGER CAPACITY:	199
BUILT/REFURBISHED:	2019-2020

The Ultramarine is a next-generation polar expedition ship designed to push the boundaries of exploration and comfort. Carrying up to 199 guests, this advanced vessel features two twin-engine helicopters that open access to rarely visited polar regions and breathtaking aerial perspectives. With its expansive wraparound deck, spacious suites, and more outdoor viewing areas than any other ship in its class, Ultramarine offers an unmatched sense of connection with the surrounding landscapes. Its design balances adventure and elegance, featuring stylish lounges, an impressive theatre, two gourmet dining venues, a tranquil spa and sauna with panoramic windows, and a fully equipped fitness centre. Every detail of the ship is crafted for immersive, luxurious discovery in the world's most remote environments.

Setting a new standard in sustainable exploration, Ultramarine is equipped with cutting-edge environmental technology, including the Micro Auto Gasification System (MAGS), which converts waste into energy, and an industry-leading operational range of 40 days. With four embarkation points and an internal Zodiac hangar for faster landings, guests spend more time adventuring and less time waiting. From heli-hiking and

exclusive landings to relaxed evenings in the glass-enclosed Panorama Lounge, Ultramarine combines thrilling exploration with exceptional comfort—delivering the ultimate polar expedition experience.

experience.

Optional extras & upgrades

Stand-up Paddleboarding

Stand-up Paddleboarding, popularly known as SUPing, originated in Hawaii. Quark Expeditions is the first company to bring this watersport all the way to Antarctica.

Sea Kayaking

Positioning yourself in the seat of a kayak is one of the most intimate ways travelers can connect with the polar regions—at water level, up close, where you can touch and feel every polar sensation imaginable. The Sea Kayak Program enables a small group of like-minded individuals to forge bonds as they explore fjords, glacial faces or mazes of sea ice.

Paddling Excursion

Every sweep of the paddle as your craft glides through the pristine polar waters creates an incredible soundtrack: the jostle of glacial ice, the lapping of waves against the rocky shore, the perpetual drip from your paddle, the call of seabirds, and the occasional splash as wildlife break the surface of the water.

Exclusive Heli-Landing

Imagine setting foot in an area of the Antarctic that can only be safely accessed by helicopter. With a small group of fellow passengers and expert guides, you'll board one of Ultramarine's two twin-engine helicopters to soar off to an exclusive polar site where no ships can navigate. Expect stunning bird's-eye views during your flight, and then, upon arrival, simply sit back, relax and take in the splendor of the Antarctic from "the best seat in the house": glacial amphitheaters, breath-taking summits, and more. Traveling in groups of 12 with no more than 4 groups (48 guests) at a time on each landing, you'll have time to relax and quietly reflect on the beauty of your polar surroundings, after which you'll be picked up by the helicopters in the same location and returned to Ultramarine.
