EPIC FALKLAND ISLANDS, SOUTH GEORGIA & ANTARCTICA EXPEDITION

On this extraordinary 19-day voyage, explore the fascinating Falkland Islands and mind-blowing South Georgia before heading to the South Shetlands Islands and the Antarctic peninsula. All the highlights of the Southern Ocean!

Departing Argentina's southernmost city of Ushuaia, we will venture east towards the Falkland Islands (Malvinas). A British Overseas Territory, the Falklands are a unique blend of British culture (expect tea and red phone boxes) and southern wildness, where penguins cavort alongside sheep on former battlefields.

From the Falklands, we venture onwards to South Georgia. A strip of jagged glacier-clad mountains piercing the brooding sky, South Georgia leaves a mark on every visitor, and it is no mystery why. The shores brim with wildlife, with thousands of King Penguins, elephant seals and Antarctic fur seals. The vast penguin colonies, seal-filled seas and albatross-packed skies have to be seen to be believed.

Continuing southward, we will delve deeper into the inlets and bays of the Antarctic Peninsula, entering the famous Gerlache Strait, where glittering ice cliffs and precipitous peaks rise straight out of the frigid water. Icebergs, glaciers, mountains and rugged snowfields characterise this wildly beautiful alien landscape. We always aim to visit locations which showcase the best of Antarctica, and we are always on the lookout for wildlife; feathered friends and jaw-dropping scenery and landscapes are guaranteed!

Any voyage in the Southern Ocean is an adventure, but with an average occupancy of 175 guests aboard Ocean Victory and Ocean Albatros, our cruises offer a unique experience for the brave few. Shore landings and Zodiac safaris will occupy our days, while our knowledgeable onboard Expedition Team will offer a selection of specially crafted lectures to inform your matchless expedition experience.

experience.

ITINERARY

DAYS 0 - 1 PRE CRUISE, ARRIVAL AND EMBARKATION IN USHUAIA

_ **Antarctica Expeditions 26/27 Season Only** _

_ **1 Extra night before embarkation. Your journey begins in one of our partnered 5-star resorts in Ushuaia, nestled in a nature reserve with sweeping views and refined comfort. A pre-voyage stay to remember.** _

Arrive in Ushuaia, Argentina - the world's southernmost city. Explore this vibrant Patagonian city, or stretch your legs in the surrounding forests. Alternatively, consider a day trip off the beaten path into the raw nature of Tierra del Fuego. The island of Tierra del Fuego is a hiker's paradise with rugged snow-capped mountains, glaciers, flower-filled meadows and rich boggy wetlands. In the afternoon, we board our vessel, waiting to welcome us in port.

After our mandatory safety drill, our expedition begins as we navigate through the calm waters of the famous Beagle Channel (named for Charles Darwin's ship). This steep-sided strait divides southern Tierra del Fuego between Chile and Argentina, and has been the jumping-off point for thousands of expeditions into the unknown. Watch out for whales and dolphins as we sail off the edge of the map into the tempestuous Drake Passage.

DAY 2 AT SEA TOWARDS THE FALKLAND ISLANDS

Following the ocean currents of the South Atlantic, we head towards the rarely-visited Falkland Islands (Islas Malvinas).

While the indigenous Yaghan people of Tierra del Fuego may have visited the islands, the Falkland Islands (Malvinas) had no indigenous population when Europeans arrived in the early 16th Century. The islands' sovereignty has been contested ever since, with historical Spanish, French, British and Argentine claims; the islands were established politically as a British colony in 1840. Tensions resulted in a conflict over the islands between Britain and Argentina in 1982. The conflict left a lasting impact on the islands - while it spurred much-needed development assistance from the United Kingdom, the conflict also left much of the islands heavily mined. Since the conflict however, the islands have flourished, selling lucrative fishing rights to their rich waters. The de-mining operation was completed in 2020, celebrated by a football match on the last patch of de-mined ground between the islands' Governor and the Zimbabwean de-mining team who have made the Falklands their home.

The waters around the Falklands are some of the richest in the world, with

huge whale, seal and penguin populations feeding where cold Antarctic waters meet the warmer waters of the South Atlantic, so keep binoculars at the ready! Otherwise, join your Expedition Team lecturers to hear about these islands' fascinating history, biology and unique 'Kelper' (as the locals call themselves) culture.

DAY 3-4 FALKLAND ISLANDS, VISIT PORT STANLEY

On our first day in the Falklands we will venture to some of the outer islands in the West Falklands - 'Camp', as the locals call the area outside Stanley. The outer islands of the Falklands are much wilder and more remote than the mainland, and host the majority of the islands' wildlife. Islands such as West Point, Carcass and Saunders are well known for their spectacular wildlife. Southern Rockhopper Penguins, Black-Browed Albatross and King Cormorants commonly nest together in vast cliffside colonies; penguins nurture their eggs and chicks in clefts between large cylindrical nests where cormorants and albatross nest. Be sure to look out above to see the bast albatross coming in to land (often less than gracefully). The islands are home to a vast number of other bird species such as the endearingly cheeky Striated Caracara (watch all unattended possessions!), and in the water a number of species new to us such as commerson's dolphins and South American sealions can be seen playing.

During the following morning we will cast anchor in the sheltered natural harbor of Port Stanley in the early afternoon. Utilizing our Zodiacs, we will land in the centre of this small city. Stanley is the only settlement on the islands of any size, with a population of around two thousand people. Behind the colourful buildings in neat rows, look closer and you will notice a very distinctly British feel to Stanley - Victorian houses which could be on any swanky London terrace line the harbourfront; red telephone and post boxes stand by the jetty; whitewashed pubs serve fish and chips alongside foaming pints of ale. The Falkland Islanders are proud of their unique homeland and capital, and Stanley is a great place to explore and soak up the local vibe. Highlights in the city include Christchurch Cathedral, the southernmost Anglican cathedral on Earth, as well as excellent shops selling local products (watch out for high quality woollen good in particular!), cafes and pubs offering a warm welcome, and several excellent museums; visitors are spoiled for choice! A short drive or a pleasant walk from the city are several stunning beaches; formerly heavily mined, these are now open, and locals and foreigners alike often visit to see the abundant penguins and spectacular gold-white sands.

DAY 5-6 AT SEA, EN ROUTE TO SOUTH GEORGIA

Wild Earth Travel

Small Ships, Big Adventures

0800 945 3327 (within New Zealand) | +64 (0) 3 365 1355 | **1800 107 715** (within Australia)

wildearth-travel.com

info@wildearth-travel.com

From the Falklands, we set out eastwards again, following the furious seas towards South Georgia. Here we enter the Furious Fifties, the stretch of powerful waters marking the entry to Antarctic waters - watch the mercury drop as we sail east; now we are truly in the Antarctic. Your crossing will benefit from our vessels' powerful engines, and the stability provided by the specially-designed X-Bow - making the journey in just two days!

In order to protect the extremely delicate and rich ecosystem of South Georgia, our dedicated Expedition Team will assist you to biosecure your clothing and equipment, while continuing with their in-depth lecture program, now focussing on the fascinating history, biology and wildlife of South Georgia. Be sure to wrap up warm and join your Expedition Team out on deck - this section of the South Atlantic is one of the most biologically productive on Earth, and is a haven for vast quantities of wildlife - from whales and albatross to penguins and seals. Watch the waves carefully - in this region, sub-Antarctic species (such as fur seals) mingle with true polar species (such as Adelie Penguins), creating a fascinating ecological mix.

DAY 7-10 SOUTH GEORGIA ISLAND, WILDLIFE PARADISE OF THE SOUTH ATLANTIC

A strip of jagged mountains pierce the brooding clouds of the Southern Ocean. Icebound peaks loom over storm-washed beaches, while glaciers peek from the head of deep fjords. First believed to have been landed on by legendary explorer Captain James Cook, even to modern explorers, South Georgia presents a forbidding aura. But peer closer, and you will see greenery among the ice; movement on the beaches; wings in the skies above.

While it seems hard to believe today, South Georgia was once one of the most degraded environments on Earth. Hearing of the rich pickings, sealers flocked to the island after Cook, slaughtering wantonly. Once the seals had been almost exterminated, visiting ships sought larger prey, and South Georgia became the world's largest whaling destination, with several settlements built to carry out this industrialised slaughter. Whalers from Norway introduced reindeer as game, which soon destroyed the island's native vegetation, while brown rats (accidentally introduced by Europeans and their boats) feasted upon seabirds and their eggs - a horror against which these naive birds had no defence.

Thankfully, extensive conservation (including a painstaking eradication of reindeer and rats) has restored this magnificent island to its former glory - and glory it truly is. Beaches throng with hundreds of thousands of King Penguins, arguably some of Earth's most elegant animals. They must vie for space with the abundant Antarctic fur seals, all desperately defending territories and competing furiously for mates - and they themselves must avoid the southern elephant seals, Earth's largest seals (weighing up to a staggering four tonnes). Tiny South Georgia Pippits and Pintail Ducks (once almost extinct) are now abundant, and petrels, albatross and shags nest on the steep hillsides and wheel in the air above. In the sea, leopard seals stalk for their next penguin meal, fur seal pups play in the shallows, and offshore, a huge variety of whale species gorge on krill. Nowhere else on Earth can boast such a diversity of wildlife, or in such quantities; South Georgia truly has to be experienced to be believed.

As in Antarctica, our exact itinerary will be dictated by weather and sea conditions, but especially by the wind and swell - nevertheless, our experienced Expedition Team and Captain will work their hardest to maximise opportunities to explore. Options include visiting the vast penguin colonies of Salisbury Plain and St Andrew's Bay, seeing the former whaling stations of Lieth and Stromness, drinking in the scenery and seal colonies of Gold Harbour, or exploring this island's fascinating exploration heritage at Grytviken (where legendary explorer Sir Ernest Shackleton is buried). South Georgia is one of those locations which grabs hold of the senses and never lets go; even long after departure, the jewel of the South Atlantic will captivate visitors for years to come.

DAY 11-12 AT SEA - CROSSING THE DRAKE PASSAGE SOUTHBOUND

Now comes the time to cross the famed Drake Passage - the body of water separating Patagonia and the Antarctic Peninsula. The Drake Passage is known for rollicking conditions and strong westerly winds - the Furious Fifties and the Screaming Sixties. While this passage may be challenging, you can rest comfortably aboard our expedition vessels, which are purpose-built with stabilizers, powerful engines and manned by a highly-qualified crew. The most spirited sailors consider Drake Passage a lifetime achievement - and you will complete the crossing twice!

Our days in the Drake Passage will be put to good use preparing for our arrival in Antarctica - your Expedition Leader will brief you comprehensively on how to

Wild Earth Travel

Small Ships, Big Adventures

wildearth-travel.com

info@wildearth-travel.com

stay safe and minimise your impact on this precious wilderness, as well as briefing you thoroughly on our plans for our time spent exploring, including hints and tips for wildlife watching. Our dedicated Expedition Team will again assist you to biosecure your clothing and equipment, as well as sharing tailored lectures on Antarctic exploration history, wildlife, geology, glaciology and more!

DAY 13-16 ANTARCTIC SOUND, ANTARCTIC PENINSULA AND SOUTH SHETLAND ISLANDS

Over the next days, we will enjoy a safe and exciting Antarctic experience explorers of yesteryear could only dream of.

Our Antarctic adventure begins in the South Shetland Islands, a chain of rugged rocks marking the northernmost point of Antarctica. It is also one of the richest in terms of wildlife, with large Gentoo and Chinstrap Penguin colonies, and an abundance of large seabirds such as predatory Giant Petrels. Landing sites which may be visited in the South Shetland Islands include the black steaming sands and rusting ruins of Deception Island (an active volcanic crater), the bustling penguin colonies of Aitcho and Half Moon Islands, or the old sealers' anchorage of Yankee Harbour.

The following days will be spent exploring further south on the Antarctic Peninsula in the Gerlache Strait region. This region is typically icy, so our exact route will be subject to careful planning by the Expedition Leader and Captain, and explained to our guests through regular evening briefings. However we will aim to visit a range of sites which showcase the best of this staggeringly beautiful region.

Consisting of the 'spine' of the Antarctic Peninsula and a large number of glaciated and mountainous islands, the Gerlache Strait is what comes to mind when most people think of Antarctica. Marvel at the massive icebergs and vast glaciers on a Zodiac cruise in Paradise Bay. Be moved by penguins tenderly caring for their precious eggs, and fiercely defending their nests on Cuverville Island. Watch cataracts of ice tumble into clear blue ocean on a hike over the active glaciers of Neko Harbour. Experience the Antarctica of old at historic huts such as Damoy Point, lovingly restored and open to all. Feel the spray of water from the blow of a humpback whale on a Zodiac safari in Wilhelmina Bay. Wonder at awe-inspiring scenery on a ship cruise through the Lemaire Channel. Wherever we go on the Antarctic Peninsula, endemic wildlife, tantalising history and breathtaking natural beauty abound.

On Antarctica, all human activity is subject to the whims of Mother Nature. While we will make every possible effort to maximise opportunities for exploration off the vessel, the safety of our guests and crew is our top priority. We therefore ask all our guests to join the expedition spirit and be flexible - harsh weather offers the opportunity to expand your knowledge of Antarctica with lectures from our expert Expedition Team, or to enjoy the superlative comfort of our vessels, be it wine-tasting, relaxing in the hot tubs, or recharging with a relaxing massage in our Polar Spa.

DAY 17-18 CROSSING THE DRAKE PASSAGE TOWARDS USHUAIA

We eventually depart Antarctica, and spend two days at sea on our way northwards back across the infamous Drake Passage towards the more welcoming shores of the Beagle Channel and Ushuaia, Argentina. During our time at sea, a variety of activities will be arranged on board to provide our guests with the chance to reflect on their voyage. Relax with an expertly crafted cocktail in the Nordic Bar in the company of new friends, soak up the knowledge and passion of our Expedition Team during lectures in the Shackleton Lounge, or simply enjoy the flight of the albatross which accompany us northwards.

During your last evening onboard, join the Captain and Officers for the Farewell Cocktail Party, followed by a presentation of photos and video by our onboard photographer - the ideal opportunity to re-live your Antarctic adventure. Skål!

DAY 19 ARRIVAL IN USHUAIA AND DISEMBARKATION

On the morning of the final day of our voyage, we will arrive back at the pier of Ushuaia, Argentina. Trees, grass and a busy city may seem strange to you after the white wilderness of Antarctica! After a hearty breakfast, it is time to bid a fond farewell to the Crew and Albatros Expedition Team, and descend the gangway back to dry land with memories of the voyage of a lifetime.

YOUR SHIP: OCEAN ALBATROS

YOUR SHIP:	Ocean Albatros
VESSEL TYPE:	Luxury Expedition
LENGTH:	104.4 m
PASSENGER CAPACITY:	169 (95 cabins)
BUILT/REFURBISHED:	2022

Ocean Albatros is built for serious Polar travel, pairing long-honed expedition capability with a modern, stabilised design. Its X-BOW structure delivers a markedly smoother ride and enables confident movement through deeper ice, giving passengers access to remote regions that traditional vessels cannot approach. Spacious staterooms with wide views, extensive observation areas, near-water hydraulic platforms and a fast, heated mudroom support uninterrupted exploration. The atmosphere on board remains streamlined and functional, with amenities such as Jacuzzis, sauna, spa, gym, library and a generous lounge layout arranged to maximise comfort without distracting from the environment outside.

Efficiency and sustainability are embedded into the ship's operations. Dual diesel-electric engines reduce emissions significantly while maintaining reliable range and power, enabling the vessel to operate with a carbon footprint roughly half that of older expedition ships. Most cabins include private balconies, communal areas are deliberately generous, and dining spans both a full restaurant and a bistro. Expedition logistics - zodiacs, science activities, photographic support and medical readiness - are built into the core offering, ensuring a

consistent, competent experience from the Arctic to Antarctica.

Antarctica.
