SOUTH GEORGIA, FALKLANDS & ANTARCTIC 23 DAY EXPEDITION

This epic voyage takes you on an incomparable journey, visiting enigmatic Subantarctic islands and the Antarctic Peninsula. Similar to the South Georgia, Falklands & Antarctic Odyssey, but with additional time in the Falklands-Malvinas, in lieu of a day in South Georgia, to discover the fascinating history of the islands and to encounter the spectacular birdlife found there. Feel awed in the presence of the king penguin colonies in South Georgia, some of the largest on Earth. Immerse yourself in the serene grandeur of the Antarctic Peninsula as you embrace the true spirit of exploration and adventure.

ITINERARY

Day 1 Arrive Ushuaia

Arrive in Ushuaia, where you will be met by a representative of Aurora Expeditions and transferred with your fellow expeditioners to your assigned pre-voyage hotel. If you are already in Ushuaia, we ask you to make your way to your hotel. Check-in is from 3.00 pm. This afternoon, visit the Aurora

Expeditions hospitality desk in the hotel lobby, between 3.00 pm and 7.00 pm, to collect your luggage tags, and confirm if you wish to join our Beagle Channel and Isla de Los Lobos Cruise (sea lion island) tomorrow. Our team will confirm details regarding your embarkation day, answer any questions and provide you with information on where to dine or purchase last minute items.

Expeditioners arriving after 7.00 pm will find a welcome pack waiting for them at check-in. We ask you to visit our hospitality desk tomorrow between 8.00 am - 10.00 am.

The remainder of your time is at leisure. All meals today are at your own expense.

Day 2 Embarkation

This morning, enjoy breakfast and check-out. Please ensure your cabin luggage is fitted with cabin tags clearly labelled with your name and cabin number. By 11.00 am, take your cabin luggage to hotel reception, prior to, or at check-out. Your luggage will be stored and transferred directly to the port for clearance, to be placed in your cabin ahead of your arrival on board. Please keep any valuables or personal items with you throughout the day.

Your morning is at leisure to explore Ushuaia.

Those wishing to join our afternoon catamaran cruise, meet back at the hotel lobby at 12.15 pm ready to transfer to the port at 12.30 pm. Here we board our catamaran and sail the Beagle Channel, towards the city's iconic Les Eclaireurs Lighthouse. Crossing the Bridges Archipelago we'll slow down to watch colonies of sea lions and imperial cormorants sun themselves on the rocky outcrops, while gulls, rock cormorants, skuas, petrels, albatrosses and cauques are often sighted. Our cruise offers panoramic views of the city and the surrounding mountain range, in addition to hearing tales of the people and communities of the region.

Alternatively, enjoy your day at leisure and meet at your hotel lobby at 3.00 pm, or 3.30 pm from the meeting point at the parking lot near the pier (details will be given by our ground staff at the hotel), to be transferred to the pier for embarkation.

Once onboard, you'll have time to settle into your cabin before our important mandatory briefings. As the ship pulls away from port, we'll gather on the deck

to commence our adventure with spectacular views over Ushuaia and Tierra del Fuego.

This evening get to know your fellow expeditioners and friendly expedition team and crew at a welcome dinner to celebrate the start of a thrilling adventure to Antarctica.

Days 3-4 Drake Passage Crossing

As we commence the Drake Passage crossing, we make the most of our time getting comfortable with the motions of the sea. Our expedition team prepare you for our first landing with important wildlife guidelines and biosecurity procedures and start our lecture program to help you learn more about Antarctica's history, wildlife and environment.

Our wildlife experiences begin as we enjoy watching and photographing the many seabirds, including majestic albatrosses and giant petrels following our vessel. On sea days, you can enjoy the facilities on board the vessel including the gym, sauna and jacuzzis or relax in one of the observation lounges.

Nearing the South Shetland Islands and the tip of the Antarctic Peninsula on the afternoon of day four, the excitement is palpable with everyone converging on one of the observation decks watching for our first iceberg. The ocean takes on a whole new perspective once we are below the Antarctic Convergence and are surrounded by the surreal presence of floating ice sculptures. The memory of your first big iceberg sighting is likely to remain with you for a lifetime. Time and weather permitting, we may attempt our first landing in Antarctica by late afternoon.

Days 5-8 Antarctic Peninsula

It is almost impossible to describe the feeling of arriving in Antarctica. Spotting your first iceberg and taking a deep breath of some of the most fresh, crisp air on earth is an experience that will stay with you forever.

Once we arrive, the western side of the Antarctic Peninsula and the South Shetland Islands are ours to explore, and we have a host of choices available to us. Because we are so far south, we will experience approximately 18-24

Wild Earth Travel

Small Ships, Big Adventures

wildearth-travel.com

info@wildearth-travel.com

hours of daylight and the days can be as busy as you wish.

Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing weather, ice conditions and wildlife opportunities.

We generally make landings or Zodiac excursions twice a day. You will want to rug up before joining Zodiac cruises along spectacular ice cliffs or among grounded icebergs, keeping watch for whales, seals and porpoising penguins. Zodiacs will also transport you from the ship to land, where you can visit penguin rookeries, discover historic huts and explore some of our favourite spots along the peninsula.

While ashore we aim to stretch our legs, wandering along pebbly beaches or perhaps up snow-covered ridgelines to vantage points with mountains towering overhead and ice-speckled oceans below. If you have chosen an optional activity, you will have the option to do participate in the activity whenever conditions allow, and of course keen polar plungers will have the chance to fully immerse themselves in polar waters - conditions permitting! The polar plunge can take place at any time during the voyage, so listen out for the announcement from the expedition team and get ready for the most exhilarating dip of your life!

In addition to Zodiac cruises and shore excursions, we may ship cruise some of the narrow, dramatic straits separating offshore islands from the mainland, or linger in scenic bays to watch whales travelling or feeding. This is a great time to enjoy the observation lounge or make your way to the bridge (open at the captain's discretion) for uninterrupted views of Antarctica in all its splendour. Listen out for the creak and deep rumble of glaciers as they carve into sea. Take a quiet moment to experience the wonder of the pristine paradise of the splendid white continent.

If you have chosen an optional activity, you will have the option to do enjoy that activity whenever conditions allow.

Days 9-10 At Sea

Enjoy informative and entertaining lectures from our expedition team and learn about the wildlife, history and culture of the places that you will visit on the voyage. You may want to use the sauna and jacuzzis, stay active in the gym or

borrow a book from our well-stocked library and relax in one of the many observation areas on board the vessel.

Day 11 At Sea / South Georgia

Sea and weather conditions will determine our departure time from South Georgia today.

Days 12-15 South Georgia

As you near the rugged island of South Georgia, spare a thought for Captain James Cook, who arrived here in 1775 and believed it to be the northern tip of a great southern continent! In fact, it is a small island only 176 km (110 mi) long, but with a 3,000 m (9,842 ft) snow-capped mountain range, some of the world's largest congregations of wildlife and a truly fascinating human history, South Georgia is an island of incredible riches. On approach, jagged mountain peaks rise steeply, while seabirds are often spotted soaring around the ship.

Remember to layer up before joining Zodiac cruises around craggy coves and along the rocky coastline in search of nesting penguins, seal haul-outs and bird cliffs. Remember to keep an eye out for South Georgia's kelp forests as well - these remarkable underwater ecosystems are quite mesmerising as their fronds sway back and forth on the water's surface.

Zodiacs will also shuttle you from ship to shore, where you can visit some of the largest king penguin colonies on the planet, take a guided walk among fur seals and elephant seals (making sure you listen to your guides and keep your distance!) and wander along pebbled streams and grassy glacial outwash plains. We also hope to visit the remnants of South Georgia's thriving whaling stations and pay our respects to Sir Ernest Shackleton, whose incredible voyage of survival is synonymous with this island.

Day 16 South Georgia / At Sea

Sea and weather conditions will determine our departure time from South Georgia today.

Days 17-18 At Sea

As we sail towards the Falklands~Malvinas, there is plenty to keep you occupied on board.

Our expedition team will continue to share their wealth of knowledge about the wildlife, history and natural world as part of the onboard lecture series. You will have ample time to enjoy observing seabirds from the stern of the ship, keeping a close watch for whales and other marine wildlife, or simply enjoying the many facilities available to you on the ship.

Days 19-21 Falklands~Malvinas

The Falklands~Malvinas comprises two large islands (East and West Falkland), with over 700 islands scattered off the coast. All but seven of these are uninhabited, with windswept coastlines, white sand beaches and crystal-clear water. These beautifully barren islands are true wildlife havens, sheltering an impressive diversity of birdlife, including the largest black-browed albatross colony on earth. The cold, nutrient-rich waters surrounding the islands make this a prime location for spotting marine life.

There are many beautiful areas to explore across the Falklands~Malvinas, each offering a unique perspective on this magnificent archipelago. Your experienced expedition team, who have made countless journeys to this area, will use their expertise to design your voyage from day to day, choosing the best options based on the prevailing winds, weather and wildlife opportunities.

Even though we're north of the Antarctic Convergence it can be quite chilly here, so you will want to layer up before joining Zodiac cruises into rocky coves or along sea cliffs, keeping watch for seals, sea lions, dolphins and penguins. On landings we may visit albatross colonies, penguin rookeries and perhaps even have a traditional English 'tea and scones' at a local cottage.

Conditions permitting, we aim to land in historic Stanley, the capital of the Falklands~Malvinas. This charming town has a distinctly British character, with terraced town houses, pioneer cottages and even an iconic red telephone box! Colourful buildings house cosy cafes, English pubs, souvenir shops, a post office and the fascinating Historic Dockyard Museum, with displays on the maritime history of the Falkland Islands, natural history and links to Antarctica.

Day 22 At Sea

With lectures and film presentations to complete our Antarctic experience, there is still plenty of time to enjoy the magic of the South Atlantic Ocean and the life that calls it home. There is time for reflection and discussion about what we have seen and experienced. We hope you become ambassadors for the Antarctic region, telling your family, friends and colleagues about your journey to this magical part of the planet, advocating for its conservation and preservation so that they might one day visit the region to experience what you have been lucky to see and do here.

As we approach the tip of South America, our Captain may sail close to legendary Cape Horn, weather and time permitting.

Day 23 Disembark Ushuaia

During the early morning, we cruise up the Beagle Channel, before quietly slipping into dock in Ushuaia, where we will be free to disembark around 8.00 am. Farewell your expedition team and fellow passengers as we all continue our onward journeys, hopefully with a newfound sense of the immense power of nature.

Upon disembarkation, for those continuing their travels in the region, transportation to the hotel will be arranged exclusively for guests who have booked their accommodations through Aurora or for those staying in downtown areas near the port. Expeditioners departing on flights prior to 12:30 pm will be directly transferred to Ushuaia Airport, those with flights after 12:30 pm will have the opportunity to explore Ushuaia before an afternoon airport transfer, and the transfer procedures and details will be communicated onboard before disembarkation.

YOUR SHIP: GREG MORTIMER

YOUR SHIP:	Greg Mortimer
VESSEL TYPE:	Expedition
LENGTH:	104 metres
PASSENGER CAPACITY:	132
BUILT/REFURBISHED:	2019

Purpose-built for polar expeditions, the Greg Mortimer combines over 25 years of expedition experience with cutting-edge nautical design. With a capacity of just 132 passengers, the ship offers an intimate, comfortable base for exploring the world's most remote regions while maintaining a focus on multiple landings, flexible itineraries, and a family-like atmosphere.

Designed with the revolutionary ULSTEIN X-BOW™, the ship handles rough seas with ease, offering a smoother ride and lower environmental impact. Hydraulic viewing platforms on Deck 5 provide unobstructed views of wildlife, while dedicated Zodiac launching areas make landings fast and efficient. The ship carries 15 Zodiacs for up to three daily excursions.

For adventurers, a spacious activity platform supports kayaking, climbing, diving and more, with quick gear access via the mudroom and drying areas. The ship is also Polar Code 6 compliant and features advanced safety systems, including backup propulsion and a fully equipped medical centre.

Onboard comforts include large observation decks, a 180° lounge, open bridge policy, and a well-stocked library. Enjoy family-style meals with complimentary drinks, and relax at the

Wellness Centre with a gym, spa, sauna, and massage services. Daily expert-led lectures enrich your journey with insights into nature, wildlife, and local cultures.

The Greg Mortimer offers a modern, safe, and environmentally conscious way to explore the polar regions - with all the comfort and spirit of true adventure.

adventure.
