HIGHLIGHTS OF THE SOUTHERN SPRING - ANTARCTICA CRUISE

Join us onboard our purpose-built, ice-class expedition vessels, Ocean Victory and Ocean Albatros to experience the majesty and wonder of Earth's last frontier up close and personal. Our vessels enable us to get closer to nature, with a fleet of Zodiac landing craft, a team of experienced expert expedition guides, and the Antarctic Peninsula as our spectacular destination.

Departing Argentina's southernmost city of Ushuaia, we cross the mighty Drake Passage en-route to the South Shetland Islands, aiming to arrive on the afternoon of the third day of our voyage (weather permitting). The unique X-Bow design of our expedition vessels offers exceptional stability at sea, giving you a smoother ride across some of Earth's most challenging waters, while the vessels' speed allows us to maximise our time in Antarctica to offer a superlative exploration experience.

Continuing southward, we will delve deeper into the inlets and bays of the Antarctic Peninsula, entering the famous Gerlache Strait, where glittering ice cliffs and precipitous peaks rise straight out of the frigid water. Icebergs, glaciers, mountains and rugged snowfields characterise this wildly beautiful landscape. Our skilled Captain and Expedition Leader will work hard to maximise opportunities to explore the White Continent. While wind, sea and ice conditions will dictate the exact locations we will visit, we will make Zodiac landings to allow guests to set foot on land and experience penguin rookeries, spectacular landscapes and historical sites, and aim to Zodiac cruise in scenic areas filled with giant icebergs, whales and seals. We always aim to visit locations which showcase the best of

Antarctica; while wildlife sighting are of course subject to the whims of Mother Nature, a variety of penguin, whale and seal species can all be found in this inhospitable wilderness. Jaw-dropping scenery and landscapes are guaranteed!

Any voyage to Antarctica is an adventure, but visiting in the early spring offers unique experiences. See penguins coming ashore to build their nests, and compete for mates. Marvel at the snowy untouched landscapes, and experience the magic of spring sunsets over the frozen mountains. With an average occupancy of 175 guests aboard Ocean Victory and Ocean Albatros, our cruises offer a unique experience for the brave few. Experience the Antarctic Spring with us!

ITINERARY

Day 1 Pre Cruise & Arrival in Ushuaia

— **Antarctica Expeditions 26/27 Season Only** —

— **1 Extra night before embarkation. Your journey begins in one of our partnered 5-star resorts in Ushuaia, nestled in a nature reserve with sweeping views and refined comfort. A pre-voyage stay to remember.** —

Arrive in Ushuaia, Argentina - the world's southernmost city. Fresh southern breezes and the squawks of gulls greet guests upon arrival at a city proud to call itself the End of the World. Ascend the hills above the city and check into your beautifully appointed pre-voyage hotel, the perfect place to relax with a glass of Malbec after travel, or the ideal gateway to explore this magnificent region.

Before your Antarctic adventure, explore this vibrant Patagonian city, shop for handmade crafts, or stretch your legs in the surrounding forests. Alternatively, consider a day trip off the beaten path into the raw nature of Tierra del Fuego. The island of Tierra del Fuego is a hiker's paradise with rugged snow-capped mountains, glaciers, flower-filled meadows and rich boggy wetlands holding unique wildlife, from guanacos to condors.

Day 2 Embarkation

In the afternoon of the first day of our expedition, we board our vessel, waiting to welcome us in port. After our mandatory safety drill, our expedition begins as we navigate through the calm waters of the famous Beagle Channel (named for Charles Darwin's ship). This steep-sided strait divides southern Tierra del Fuego between Chile and Argentina, and has been the jumping-off point for thousands of expeditions into the unknown. Watch out for albatross, whales and dolphins as we sail off the edge of the map into the tempestuous Drake Passage.

Day 3-4 At Sea - Crossing the Drake Passage Southbound

Sailing onward, we cross the famed Drake Passage - the body of water

separating Patagonia and the Antarctic Peninsula. The Drake Passage is known for rollicking conditions and strong westerly winds, nicknamed the Roaring Fifties. While this passage may be challenging, you can rest comfortably aboard our expedition vessels, which are purpose-built with stabilizers, powerful engines and manned by a highly-qualified crew. The most spirited sailors consider Drake Passage a lifetime achievement - and you will complete the crossing twice!

Our days in the Drake Passage will be put to good use preparing for our arrival in Antarctica - your Expedition Leader will brief you comprehensively on how to stay safe and minimise your impact on this precious wilderness, as well as briefing you thoroughly on our plans for our time spent exploring, including hints and tips for wildlife watching. Our dedicated Expedition Team will assist you to biosecure your clothing and equipment (a vital process to protect Antarctica's delicate ecology), as well as sharing tailored lectures on Antarctic exploration history, wildlife, geology, glaciology and more!

We will cross into the Antarctic Convergence on the third day of our voyage - watch the mercury plummet as we sail southwards into Antarctic waters, an abrupt cooling that marks the intersection of Antarctic waters with the warmer waters of the Atlantic and Pacific Oceans. As the sea cools, wildlife multiplies; these are some of the most biologically productive water on Earth, so expect to see petrels, albatrosses and potentially penguins, seals and whales in abundance. Weather permitting, we may be able to make landfall in the South Shetland Islands (a small but spectacular archipelago to the north of the Antarctic Peninsula) on the afternoon of our second day in the Drake Passage, marking the start of our exploration on the Last Continent.

DAY 5-7 South Shetland Islands & the Antarctic Peninsula

Over the next days, we will enjoy a safe and exciting Antarctic experience explorers of yesteryear could only dream of.

Our Antarctic adventure begins in the South Shetland Islands. This chain of rugged rocks marks the northernmost point of Antarctica, and the most exposed to the fury of the Southern Ocean. Because of this, it is also one of the richest in terms of wildlife, with large Gentoo and Chinstrap Penguin colonies, and an abundance of large seabirds such as predatory Giant Petrels. The ice-clad mountains of Livingstone, Greenwich and King George Islands give us a glimpse of what is to come as we venture further south. Landing sites which may be visited in the South Shetland Islands include the black steaming sands and rusting ruins of Deception Island (an active volcanic crater), the bustling penguin colonies of Aitcho and Half Moon Islands, or the old sealers'

anchorage of Yankee Harbour.

The following days will be spent exploring further south on the Antarctic Peninsula in the Gerlache Strait region. This region is typically icy, so our exact route will be subject to careful planning by the Expedition Leader and Captain - however we will aim to visit a range of sites which showcase the best of this staggeringly beautiful region. Consisting of the 'spine' of the Antarctic Peninsula and a large number of glaciated and mountainous islands, the Gerlache Strait is what comes to mind when most people think of Antarctica.

Visiting Antarctica in the early Spring offers exceptional experiences. Watch penguins come ashore and begin to build their nests and compete for mates. Marvel at the winter sea ice which mantles these frigid seas, stretching as far as the eye can see, and experience the power of an ice-class vessel push through this marine mosaic. Watch miraculous sunsets (which can't be seen in the height of summer) in an alien landscape. With heaps of fresh snow, we expect excellent opportunities for snowshoeing and camping in Antarctica, with springtime offering the best possible conditions. Wherever we go on the Antarctic Peninsula, endemic wildlife, tantalising history and breathtaking natural beauty abound.

While wind, ice and sea conditions will dictate our precise destinations and timings, our plans will be explained to guests during regularly scheduled evening briefings with your Expedition Leader; these nightly sessions are also an excellent opportunity to hear from your knowledgeable Expedition Team, who will explain and expand on our experiences to ensure guests get the most from their voyage.

On Antarctica, all human activity is subject to the whims of Mother Nature. While we will make every possible effort to maximise opportunities for exploration off the vessel, the safety of our guests and crew is our top priority. We therefore ask all our guests to join the expedition spirit and be flexible - harsh weather offers the opportunity to expand your knowledge of Antarctica with lectures from our expert Expedition Team, or to enjoy the superlative comfort of our vessels, be it wine-tasting, relaxing in the hot tubs, or recharging with a relaxing massage in our Spa.

DAY 8-9 At Sea - Crossing the Drake Passage Northbound

We eventually depart Antarctica, and spend two days at sea on our way northwards back across the infamous Drake Passage towards the more welcoming shores of the Beagle Channel and Ushuaia, Argentina. During our time at sea, a variety of activities will be arranged on board to provide our

guests with the chance to reflect on their voyage. Relax with an expertly crafted cocktail in the Nordic Bar in the company of new friends, soak up the knowledge and passion of our Expedition Team during lectures in the Shackleton Lounge, or simply enjoy the flight of the albatross which accompany us northwards.

During your last evening onboard, join the Captain and Officers for the Farewell Cocktail Party, followed by a presentation of photos and video by our onboard photographer - the ideal opportunity to re-live your Antarctic adventure. Skal!

DAY 10 Ushuaia, disembarkation

On the morning of the final day of our voyage, we will arrive back at the pier of Ushuaia, Argentina. Trees, grass and a busy city may seem strange to you after the white wilderness of Antarctica! After a hearty breakfast, it is time to bid a fond farewell to the Crew and Albatros Expedition Team, and descend the gangway back to dry land with memories of the voyage of a lifetime.

YOUR SHIP: OCEAN VICTORY

YOUR SHIP:

Ocean Victory

seamless travel across both Polar regions.

VESSEL TYPE:

Luxury X-Bow®-Infinity Class Vessel

LENGTH:

PASSENGER CAPACITY: 174 passengers in 93 cabins

BUILT/REFURBISHED: 2021

Ocean Victory carries the same next-generation expedition design as its sister ship, purpose-built for the demands of Antarctica and the Arctic. The patented X-Bow structure delivers a steadier, more comfortable ride through heavy seas and deeper ice, while the heated mudroom and multiple exterior access points streamline zodiac operations. Large stateroom windows, broad observation areas and hydraulic platforms keep the Polar environment in constant view, and amenities such as Jacuzzis, spa, gym, lounge spaces and bistro service support a high standard of comfort without dulling the focus on exploration.

Efficiency and environmental performance are central to the vessel's build. Diesel-electric propulsion reduces fuel consumption and lowers emissions by roughly 50 percent compared with traditional expedition ships. Most cabins include private balconies, communal spaces are deliberately generous, and all core expedition infrastructure - photography support, science areas, medical capability and dedicated passenger services - is integrated into daily operations. The result is a modern, stable and environmentally responsible platform for
